

# Effective SAFETY Solutions

## WHERE

Company: Alcan

Location: Singen, Germany

Business: Engineered Products

Contact person: [volker.brockhagen@alcan.com](mailto:volker.brockhagen@alcan.com), Safety manager

## THE ISSUE

- Prevention of slips and falls climbing and descending a forklift truck
- Prevents slips even if the sole of a shoe is oily or greasy

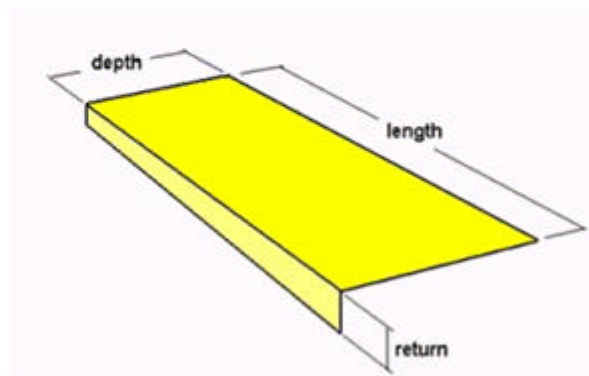

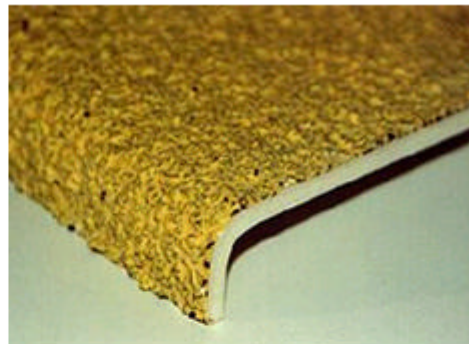

## THE SOLUTION (additional level of protection put in place)

Type: (Technical ☒ - Procedures ☐ - Others ☐ )

Description of key feature or change versus current conditions:

Stair covers which are designed to simplify fit onto existing steps. They can be bolted, bonded, riveted using proprietary fasteners and/or suitable adhesives. Bright yellow colour highlight the step edge and improves safety benefit.

## PICTURES or ADDITIONAL INFO

Stair covers usually are constructed from a durable, high impact polyester or steel plate and feature a diamond hard silicon carbide aggregate anti-slip surface.

## SAFETY BENEFITS – pros/cons

- Risk of slips, trips and falls reduced, if
  - behavioural rules for safe climbing and descending are adhered: Step-by-step / No jumping / Usage of all grips
- = Always 3 points safe (1 Hand + 2 Feet or 2 Hands + 1 Foot).

**IMPLEMENTATION COST of 50 € per f.l.t.**
