

Effective SAFETY Solutions

WHERE

Company: **Corus**

Location: **Cap de-le-Madeleine (Canada)**

Business: Aluminium rolled products

Contact person: Martin Samson (msamson@corusgroup.ca)

THE ISSUE

Housekeeping is an important issue in H&S.

THE SOLUTION (additional level of protection put in place)

Type: (Technical ☒ - Procedures ☒ - Others ☐)

Description of key feature or change versus current conditions:

The "5 S" system ensures orderliness, organization, and necessity of items in each work area. The system consists of 5 steps:

1. Sort (organize) – eliminate items not needed
2. Set order – put useful items in order (give everything a place)
3. Shine (cleanliness) – keep things clean
4. Standardize – organize using visual controls
5. Sustain (follow-up/ audit) – ensure rules are followed

PICTURES (if applicable) or ADDITIONAL INFO

SAFETY BENEFITS – pros/cons

- It eliminates risks – makes work easier and better ergonomics
- It's a system approach and creates a continuous improvement culture including risk thinking culture

IMPLEMENTATION COST
