

# Effective SAFETY Solutions

## WHERE

Company: **Corus**

Location: **Thomas Steel Strip – Warren Ohio USA**

Business: Corus Special Strip

Contact person: [Mark.Stempak@corusgroup.com](mailto:Mark.Stempak@corusgroup.com)

## THE ISSUE

When people work into a machine or installation, the lock out tag out is very important. The correct use of the provided equipment and procedure is also very important. To support this, a training pack is useful to use.

## THE SOLUTION (additional level of protection put in place)

Type: (Technical ☒ - Procedures ☒ - Others ☐ )

Description of key feature or change versus current conditions:

The training board is used to demonstrate how to apply the different devices used to de-energize equipment. The support cart is used at all planned maintenance outages. It serves as the control point for the outages. The necessary paper work and group lock box are kept on top shelf. The cart contains a variety of lock out devices that could be utilized during the outage.
