

13th International Aluminium Recycling Congress

23 – 24 February 2015 - Vienna, Austria

Learn about key market and political developments, meet colleagues, exchange views and cultivate new relationships with representatives from the entire aluminium chain.

Who should attend?

- Refiners and remelters (secondary smelters)
- Scrap collectors and processors
- Metal merchants
- Consumers of recycled aluminium
- European and national authorities
- National and international associations
- International and national media

Topics to be discussed

- Global market trends
- Industrial competitiveness
- The role of sustainability and recycling: current and future perspectives
- Security of global aluminium scrap supply
- New EU waste legislation
- Innovative recycling technologies

In view of the increasing demand for sustainable products coupled with a shortage of raw materials, recycled aluminium is increasingly considered a cornerstone of European sustainability.

This presents a number of questions:

- Is there enough recycled aluminium available?
- What is the value of recycling for the security of raw material supply?
- What is the raw material potential of urban mining?
- Are common processing technologies sufficient?
- Can Europe be a global recycling leader of the future?
- How does policy impact recycling?

Join the aluminium recycling industry, collectors and processors of scrap, academics and policy makers to discuss and engage on potential answers to these questions.

The **13th International Aluminium Recycling Congress** will take place in Vienna, gathering high-calibre speakers, delegates from across the entire aluminium supply chain, key policymakers and influencers, and European and global citizens to discuss issues relating to aluminium recycling. It offers a unique forum in which participants can engage in highly relevant topics relating to market trends and dynamics, state-of-the-art technology and the latest political and legislative developments in the field of aluminium recycling.

Venue

Vienna Marriott Hotel
Parkring 12a
1010 Vienna
Austria

The stunning Vienna Marriott Hotel is situated on the elegant Ringstrasse and is within walking distance of St. Stephen's Cathedral, the opera, theatres, museums, shopping streets and all major attractions.
