13th International Aluminium Recycling Congress

23 – 24 February 2015 - Vienna, Austria
(DRAFT PROGRAMME)

[Vienna Marriott Hotel](#)
Parkring 12a, 1010 Vienna, Austria

Monday 23 February 2015 (14:00 – 18:00)

Opening Session

- Welcome Address - *Gerd Götz, EAA Director General*
- Agenda and process - *Peter Woodward, Congress facilitator*

Keynote Speech

- The aluminium industry contribution to Europe's global leadership for a circular economy - *Roberta Niboli, CEO of Raffmetal S.p.A. and Chair of the EAA Recycling Division*

Session 1: The regional to global aluminium recycling market outlook

- A global perspective on trends in aluminium recycling - *Eoin Dinsmore, CRU Group, U.K.*
- The global mass flow project - *Marlen Bertram, Director Product Stewardship, International Aluminium Institute (IAI)*
- The European picture of recycling performance and the scrap market - *Roland Scharf-Bergmann, Senior VP & Head of Recycling, Norsk Hydro*
- Participant discussion and Q & A for clarification

(Coffee break)

Session 2: Recycling matters for Europe

An opportunity to further explore key issues and proposals to help achieve a more competitive and sustainable aluminium industry in Europe

Keynote Speech

- Resource efficiency for a Triple 'A' European circular economy - *European Commission DG Environment (TBC)*

Introductory perspectives

- *S. Bonafé, MEP Rapporteur for the European Parliament ENVI Committee (TBC)*
- *Kaspars Gerhards, Minister for Environmental Protection & Regional Development, Latvia (TBC)*
- *Catherine Athenes, Group Sustainability Council Leader, Constellium, France*

Monday 23 February 2015 (19:00 - 22:00)

- Networking Dinner at the typical Austrian restaurant *Der Wiener Heurige Wolff*

Tuesday 24 February 2014 (9:00 – 15:30)

Session 3: Innovation in recycling

Introduction

- Magdalena Garczynska, Recycling Director, EAA

Aluminium more and better

- XRF Technology - Innovative Practical Applications for Metal Sorting - *Martin Weiss, Technical Director, Redwave, Austria*
- LIBS: Using laser for very rapid analysis of chemical composition of material - *Jonas Gurell, Manager Material Analysis & Monitoring, Swerea, Sweden*
- Recovering of non-ferrous metals from bottom ashes - *Rogier van de Weijer, Business Development Director, InAshco, The Netherlands*
- Innovation in recycling organization of Vienna's municipal waste recycling - *Dr. Johannes Sturn, Director of the Vienna City Department Controlling & Assistance in Waste Organization and Material Flow Management*
- Innovative furnace technology (TBD)
- Small group discussions and feedback

(Coffee break)

- Spotlight on the European Commission R&D Framework - *EC representative*

(Luncheon)

Session 4: Opportunities and challenges in recycling for a sustainable future

Keynote perspectives

- Future trends - *Cheryl Hicks UNEP/Wuppertal Institute Collaborating Centre on Sustainable Consumption and Production (TBC)*
- Development of new recycling methodologies in new VW cars *(TBC)*
- IKEA strategy "People & Planet Positive" and the role of aluminium recycling - *C.Magnus Wärmsved; The global category leader for aluminium, IKEA (TBC)*
- Making electronics recycling a sustainable goal - *Jonathan Perry, Take Back Compliance Consultant, EMEA Dell*
- Participant and panel discussion on emerging themes

Closing remarks - Roberta Niboli, CEO of Raffmetal S.p.A. and Chair of the EAA Recycling Division
